# Achieving more with less ...

## Weekly Service - Blocks of flats

- Bins will be collected from the allocated point of collection only

### Reasons for non collection

- If your bin has incorrect items
- If the lid is not closed on the bin
- If you place excess waste on or by your bin
- If no reasonable access to the bins

### Did you know?

- We do not offer assisted collection service for residents of flats as most have communal bins

## To resolve both overloaded/overweight or contamination, you have three options;

1. The contents from the non-collected bin can be taken to the Civic Amenity Site, before the next scheduled collection.
2. The contents from the non-collected bin can be removed and kept to one side and placed back in the bin after the next scheduled collection ensuring it does not overload and contaminate the bin again.
3. Contact us and arrange for a special collection of your bin which will require a payment prior to clearance.

If you require any further information regarding your waste and recycling, you can go to the Harrow Council website:
